

Hermes安装&基础配置

如果在国内，全程要挂VPN

1. 官网安装Hermes

<https://hermes-agent.nousresearch.com/>

如果一直安装超时，可尝试使用网络代理，使用方法参考视频：

https://www.bilibili.com/video/BV19zNj6EEch/?spm_id_from=333.1007.top_right_bar_window_history.content.click&vd_source=caaa7954629e6c4c1b5ebbf280a5a084

安装过程中如有报错，先下载log喂给Deepseek/ChatGPT尝试找找解决方法，还解决不了可以把log发给我

2. 连接AI模型

如要使用API连接，以Deepseek为例：

1) 进入Deepseek官网找到生成API key的入口

DeepSeek-V4-Flash-Vision-Exp, the multimodal visual understanding model, is now available on supporting API calls via Chat Completions, Messages, and Responses format; we welcome your testing.

API keys

Your API keys are listed below. The API key is only visible and can be copied once with others, or expose it in the browser or other client-side code. In order to protect the security of your account, DeepSeek may also automatically disable any API key that we've found has leaked publicly. Usage of API keys created before April 25, 2024, was not tracked. Each account can retain up to 100 API Keys.

Name	Tracking ID	Key	Created	Last used	
forHermes	b246974f-1836-449b-b25a-f59fd878e7ef	sk-5479f*****98b4	2026-08-26	2026-08-26	
forClaude	1ef7eb60-12c9-4e6d-9fb2-f754e2dfae69	sk-3b94f*****4e62	2026-05-24	2026-07-27	

API Key Usage

Create new API key

deepseek

The official version of DeepSeek-V4-Pro has been released, featuring significantly enhanced agent capabilities and support for the Responses API and Codex integration. It is now fully available across the web, mobile app, and API; we welcome your testing and feedback. →

Into the Unknown

Chat Now

Free access to DeepSeek. Experience the intelligent model.

Access API

Build with the latest DeepSeek models. Powerful models, smooth experience.

3. 连接AI模型

2) 在Hermes中设置模型

找到API提供商（此案例中为Deepseek）

复制前页中的API key并填入

The screenshot displays the Hermes AI interface. On the left, the 'SESSIONS' sidebar shows a session titled 'Set up models & skills & MCPs' with a 'now' status. The main chat area shows a conversation with the user asking 'What model are u using now?' and the AI responding 'I'm now running on deepseek-v4-pro, provided by deepseek.' Below this, a note states '(For the record, the active model briefly switched to nemotron-3-ultra-free via opencode-free m / deepseek.)'. A 'Self-improvement review' button is visible. The 'Models' panel on the right lists various models, including 'DEEPSEEK', 'Deepseek V4 Pro Med', 'Deepseek V4 Flash Med', 'Deepseek V4 Flash Vision Exp Med', 'OPENCODE FREE', 'X Preview F Free Med', 'Hy3 Free Med', 'Laguna S 2.1 Free Med', and 'Nemotron 3 Ultra Free Med'. The 'Edit Models...' button is highlighted. The 'Providers' section is expanded, showing 'Anthropic', 'xAI', and 'DeepSeek'. The 'DeepSeek' provider is selected, and the 'API keys' option is chosen. The 'API keys' section shows a text input field with the API key 'sk-5...98b4'. The 'Add provider...' button is also highlighted.

4. 确认模型连接成功

在对话框中询问Hermes正在使用什么模型，得到答复与所选模型相符即可

Hermes有免费模型可以使用，在模型下拉框选择Free结尾的模型，同样选择后询问正在使用什么模型，确认免费模型连接成功

5. 安装超好用的skills

在对话框中要求Hermes安装以下skills到global

技能	网址	作用
skill-vetter	https://clawhub.ai/spclaudehome/skills/skill-vetter	针对所有安装的skills做安全检查
self-improving-agent	https://clawhub.ai/pskoett/skills/self-improving-agent	从经验中学习，自我进化
proactive-agent	https://clawhub.ai/halthe lobster/skills/proactive-agent	主动预判、长期记忆、自我进化
find-skills-skill	https://clawhub.ai/fangkelvin/skills/find-skills-skill	按需找skills
